

PARDON OUR CONSTRUCTION

The Boise VA Medical Center is constructing a new state-of-the-art Intensive Care Unit and Surgical Unit on the top of what is currently known as building 85.

The new ICU space will have 10 private rooms, 4 of which will be isolation chambers equipped with the very best technology. These ICU beds will replace the smaller, outdated ICU beds that are currently being used today.

The new surgical suite will add 2 large operating rooms and 6 post surgery beds.

The first floor space will have all new admitting desk and waiting rooms; and additional ER space for the future.

We apologize for the inconvenience and disruption this construction has caused you. Our intention is to serve the health needs of our nations veterans with the very best health care imaginable. Providing the best health care means using the newest technology in the most appropriate setting.

Once completed, we are confident you will be impressed by our efforts to better serve veterans like you.

Please use caution and exercise patience as you navigate the VA campus, and remember.....
