Behavioral Health Levels-of-Care

Each Veteran receiving care through the Behavioral Health Department is individually assessed to ensure the optimal level-of-care is provided for each unique situation. Treatment plans are tailored to each Veteran’s needs, strengths, and resources. Our multidisciplinary team of professionals is comprised of psychiatrists, psychologists, licensed social workers, licensed mental health counselors, peer support specialist, nurse practitioners, nurses, pharmacists, and occupational therapists. Chaplaincy services are available upon request. As a training facility, we have multiple professional trainees, as listed above, participating in our programs that provide additional services with supervised care.

This guide has been created to provide Veterans and family members a comprehensive resource describing the many psychotherapeutic groups available at the Boise VAMC Behavioral Health Department. Psychotherapeutic groups offer many benefits in the treatment of mental health recovery and substance abuse recovery. Groups are often as efficacious as individual therapy. Groups offer the opportunity for peer support and interaction.

Please use this guide to better understand the groups offered so our Veterans can receive the best possible treatment for their mental health needs.

Please talk to your Behavioral Health provider if you’re interested in being referred to the groups listed. In the event you do not have an assigned provider and you are interested in attending one of the groups listed, please contact:

A Recovery Model for You!

Recovery is a process of change through which individuals improve their health and wellness, live a self-directed life, and strive to reach their full potential. Recovery is about finding your way in the world:

The way that works best for you so you can live the best life possible. So, you can live in the community you choose and do the things that keep you healthy.

Recovery is about living well.
- It is about moving beyond any label.
- It is about deciding who you are. Not about how others decide who you are.
- It is about creating a good life of your own choosing.

Change the focus from “what is wrong with you?” to: “What is right with you?”

In using this guide, please note that:
- Unless otherwise specified, all groups are located in the Behavioral Health Building (114)
- GR = Group Room

Social Skills Group (MHICM ONLY)  
Julie Orozco Geoff Hall  
M 10:30-11:30 am, MHICM Kitchen  
Social Skills group is an evidenced base group for individuals with severe chronic mental illness. The group consists of learning one particular skill each week, like making a request, or expressing a negative emotion. Each skill consists of 3-4 steps that are practiced in a series of role plays by each member. Referrals are accepted yearly. Participants must learn the 4 basic skills through individual sessions prior to starting the group which usually begins in February and lasts four to five weeks.  

ACT group  
Angela Enlow  
M, 1200-1300pm VVC  
Acceptance and Commitment Therapy (ACT, pronounced “act”) focuses on learning ways to accept emotions and thoughts and commit to a quality life. You are not asked to think differently; instead you will learn to “see” your thoughts in such a way that they don’t continue to guide your behavior. We also don’t try to change emotions; rather, we’ll focus on acceptance of emotion, but not in a “just give up” fashion. We will do this in a way that helps you notice that you have emotions and that you can carry emotion with you compassionately and still work to live the kind of life you want to live. If you have patients who would be a good fit for ACT and one of those availabilities works for them, please send me a referral either via email or cosigning me onto a note. This group is not going to be diagnosis specific. The group description is below.

Healthy Habits group
Julie Orozco
M, 2:00-3:30pm, VVC
The group is designed for all individuals enrolled in
general behavioral health who are in the
preparation and action stages of change. It will
explore developing an identity that supports their
desired change behaviors to reinforce long term
improvements. Participants will learn
strategies and skills to implement that will support
their desired behaviors, habits and routines and
minimize old negative behaviors and patterns. For
example, veterans will look at the cues, craving,
response and reward cycles of unwanted vs
desired habits to problem solve interventions that
can disrupt or reinforce the cycle. The group will be
broken down into education,
homework assignments and problem-solving
barriers. Group size will be limited to 8 to facilitate
in depth discussions and problem-solving
opportunities. It will be a 90-minute 8-week VVC
group that will meet on Mondays at 2pm beginning
Oct 12. Depending on interest, the group has
potential to be extended to a maintenance group
that meets weekly to review habit trackers and to
support intended outcomes. If you know of a
veteran who would be interested, please call my
extension @1339 or email me julie.orozco@va.gov.

Progressions Moral Injury Program Phase 1 “Lodestone”
Chaplain Rachel Mikaelsen
T, 2:30pm-4:00pm, ongoing
The Phase 1 group called “Lodestone” is where we cover topics such as: what are morals, where do they come from, how moral injury happens, PTSD/Religion, Spiritual Values, Grief & Loss, Whole Health, and moral injury through the lenses of various religions. This is an ongoing group with rotating topics. Veterans may start in the group at any point. This group is meant to be a starting point and landing pad for them to return to at any point in their healing journey. It also serves as a safe space to experience community and comradery.
To be eligible for Lodestone, Veterans need to be able to maintain sobriety for a minimum of 30 days prior to starting class, and have access to a mental health provider, or be starting an episode of care with a mental health provider. This group also is appropriate for Veterans who are:
• New to the VA
• New to mental health treatment
• Recently in recovery
• Able to see the world through a black & white lens
• Able to respectfully sit in a pluralistic group
• Have a desire to change
